## meX+dentX meX+dentX PREMIUM

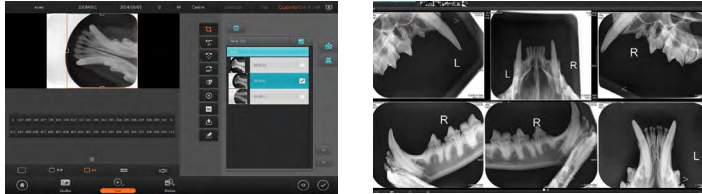

The dental CR solutions for veterinarians

- Resolution up to 21 lp/mm
- Fast and high-quality readout of reusable imaging plates
- Six sizes of imaging plates (0, 1, 2, 3, 4c and 4)
- User-friendly LCD touchscreen
- Built-in erase function
- Software-optimized recording, processing and management of x-ray images

## Easy, small and fast

The automated, magnetized feeding tray offers "push and go" functionality, making the operation of the meX+dentX easier. The reader is DICOM 3.0 compatible and uses a full range of reusable imaging plates of different sizes (0, 1, 2, 3, 4c and optional 4) which are easy and fast to position.

### HeraDentVet - Software

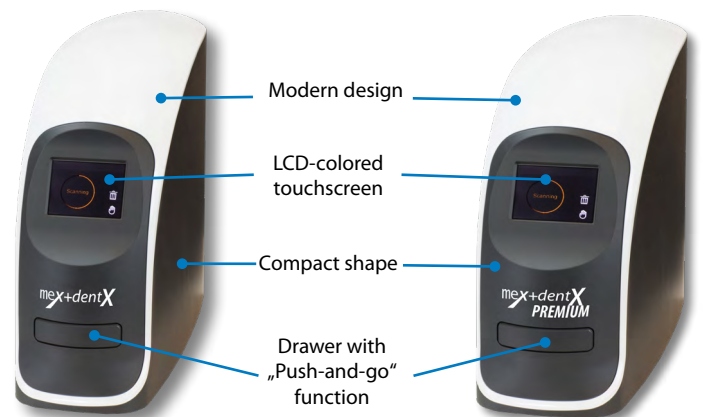

HeraDentVet Imaging Software optimizes image acquisition and management. The user-friendly software supports efficient veterinary practice workflow and is simple to learn. The software can be integrated to common archiving systems.

### Imaging Plates

- Size 0 22 x 31 mm
- Size 1 24 x 40 mm
- Size 2 31 x 41 mm
- Size 3 27 x 54 mm
- Size 4c 48 x 54 mm
- Size 4 76 x 57 mm

## Specifications

| Model                        | meX+dentX / meX+dentX PREMIUM                                                    |
|------------------------------|----------------------------------------------------------------------------------|
| Supported IP Sizes           | dentX: 0, 1, 2, 3, 4c<br>PREMIUM: 0, 1, 2, 3, 4c, 4                              |
| Selectable Pixel Size        | High: 35 µm / Standard: 64 µm                                                    |
| Sampling Pixel Pitch (35µm)  | 21 lp/mm                                                                         |
| Readout time                 | 4,1 - 25 sec                                                                     |
| Resolution                   | Data Capture: 16-bits per pixel, 65,000 graytones                                |
| Eraser function              | Embedded                                                                         |
| Interface                    | USB 2.0 high-speed (480 Mbps)<br>Ethernet (100Mbps)                              |
| HeraDentVet Imaging Software | DICOM 3.0, TIFF, BMP, JPEG, DICOM                                                |
| Dimensions                   | dentX: 265 (H) x 120 (W) x 318 (D) mm<br>PREMIUM: 268 (H) x 124 (W) x 351 (D) mm |
| Weight                       | dentX: 5,25 kg<br>PREMIUM: 5,8 kg                                                |

### Standard accessories

- HeraDentVet Imaging Software
- IP Storage Box
- USB 2.0 Interface Cable, Ethernet Cable & Power Supply

#### At meX+dentX:

- 4 x Imaging Plate Size 2 + 100 hygienic bags
- 2 x Imaging Plate Size 4c + 100 hygienic bags

#### At meX+dentX PREMIUM

- 4 x Imaging Plate Size 2 + 100 hygienic bags
- 1 x Imaging Plate Size 4c + 100 hygienic bags
- 1 x Imaging Plate Size 4 + 100 hygienic bags
