

Reliable Quality

The ePM 10 Vet comes equipped with a high-quality shell materials, fan-free design and veterinary specific accessories. They are safe, durable, and built to last.

High-quality Shell Materials

- Manufactured with industry-leading plastics that stand up to the most stringent medical-grade cleaners.

Fan-free Design

- Keeps fur out of equipment
- Reduces cross-contamination, protecting the health of patients and staff
- No internal dust, extending the life of the monitor

Veterinary Specific Accessories

- Low-trauma ECG clips maintain consistent contact
- Appropriately-sized NIBP cuffs provide accurate readings
- Durability-tested for long-lasting reliability

ECG: Non-traumatic crocodile clips

NIBP: Variety of cuffs fits multiple patient sizes

SpO2: Interchangeable clips can read a variety of sites

**Mounting Bracket Sold Separately*

ePM 10 Vet

A new generation of veterinary monitor

Intelligence for Safety

As veterinary medicine advances, the demand for high-quality veterinary equipment increases. The ePM 10 Vet focuses on progressive design, making this monitor smart and simple.

High-definition capacitive touch screen

Two-step operations streamline use

Gesture controls creates a smartphone-like user experience

Wireless capability

Excellent Performance

The ePM 10 Vet supports advanced parameters with excellent and accurate performance.

Precise Algorithms

- NIBP: veterinary-specific; weak-signal tolerant and anti-interference algorithm
- ECG: Multi-lead analysis algorithm*, a patented Mindray exclusive
- SpO2: Low perfusion and anti-motion algorithm

*Chinese Patent No. ZL 200710305062.3

Comprehensive Parameter Monitoring

- Innovative design of lifting handle and flexible expansion
- Optional integrated Sidestream CO2: With 30 years of technical expertise
- 2-channel IBP: optional

Smart & Simple

The ePM 10 Vet provides veterinary professionals with smart applications and richer intraoperative information, making monitoring more convenient, and supporting surgery more efficiently.

Smart Lead-switch & Visible Alarm

- Automatically switches to an available lead if the main ECG lead detaches, ensuring continuous monitoring
- One click confirms which lead is detached, increasing trouble shooting efficiency

Target Reference Range Display

- Target range dashboard for key parameters helps focus on key parameters during surgery
- Customizable target ranges and customizable key parameter selection

Customized Configuration

- Memory for up to 25 customized configurations
- Identifiable configurations with different alarm limit settings for different species or patients
- Supports one-click USB import/export-configurations can be loaded to other ePM monitors
